

April 4, 2008

Dear Friends of Lunches for Learning,

Who could have known back in 2004 when Lunches for Learning (L4L) started by providing lunch to 84 children in the Andrea Gonzales Elementary School that the program would develop into its own Foundation currently serving over 850 elementary school children in 12 elementary schools throughout Valle District Honduras? **"Breaking the cycle of poverty in rural Honduras"**... Those few words that encompass our mission make a simple sentence, but the impact of your support of this mission is most evident in the lives of the children we are feeding.

As you can imagine, word of the L4L program has spread rapidly throughout Valle District. The result is that we have 14 additional schools that have submitted written appeals to be "among the chosen" to be selected for the lunch program. Along with this desire to be included has come greater recognition by the government of Honduras. Recent initiatives have opened doors of opportunity with the office of the Vice-President, with the potential to collaborate to support even more children.

In order to add more schools and to capitalize on the opportunities that are developing, L4L needs to seek additional financial support. As an organization we have focused on not bombarding our supporters with requests of support. However, we are at a juncture in the Foundation's growth where we must make an appeal for continued support. We have demonstrated the ability to deliver on our mission in Honduras and we are being presented with the opportunity to do more. We cannot do it without you.

To that end Lunches for Learning would ask that you consider making a donation once again. Whether it is \$15 or \$150, every dollar given, allows L4L and its contributors the opportunity to make a **REAL** difference in a child's life now and on their future in Honduras.

To make a donation, simply mail your check or money order to the address listed above; or if you are computer savvy, you may log onto our website at [www.lunchesforlearning.org](http://www.lunchesforlearning.org) and make a secure donation online.
